Also, the plantation may further be developed along the periphery of the site/ on the open spaces wherever feasible within the premises.</li> </ol>

  
 Signature of the inspecting officer

iv.	As per the Ministry's Office Memorandum F.No. 22-65/2017-IA.III dated 1st May, 2018, and as proposed by the project proponent, an amount of Rs 1.83 lakhs shall be earmarked under Corporate Environment Responsibility (CER) for the activities such as support to avenue plantation in public places, infrastructure for drinking water supply, infrastructure for sanitation & health, activities for improvement of agricultural practices and skill development programs. The activities proposed under CER shall be restricted to the affected area around the project. The entire activities proposed under the CER shall be treated as project and shall be monitored. The monitoring report shall be submitted to the regional office as a part of half yearly compliance report, and to the District Collector. It should be posted on the website of the project proponent.	<i>Budget of Rs 1.83 Crores is allocated and complied.</i>  <i>Activities like Avenue Plantation, Drinking water supply, Sanitation &amp; Health, Sports and Educational promotions are undertaken. The Deputy Commissioner informed of these activities.</i>	<b>Complied.</b>  As per the information provided during the site inspection, PP has spent Rs. 1,83,80,694 for the activities such as plantation in public places, donation for RO plant at Rims Raichur, towards health and sanitation, women empowerment etc. The activities are monitored by the PP and records are maintained. Photographs of the activities undertaken in this regard, have been submitted to this office. PP has posted about these activities in the website of the company (verified at <a href="https://www.vbshilpa.com/CSR_home.php">https://www.vbshilpa.com/CSR_home.php</a> on 05.03.2025, 16.40 Hr).
v.	Approval/permission of the CGWA/SGWA shall be obtained before drawing ground water for the project activities, if applicable. State Pollution Control Board (SPCB) concerned shall not issue Consent to Operate (CTO) till the project proponent obtains such permission.	<i>This project does not draw ground water, only KIADB supply water is used.</i>	<b>Refer below.</b>  Based on the records produced by the PP, the KIADB (Raichur) vide Letter No. KIADB/DDO&AEE-Raichur/2018-19/502 dated 08.03.2019 agreed to supply 100 KLD water to the unit. The existing CTO has been granted by the KSPCB vide combined consent order No. AWH-319207 dated 23.07.2020 (valid upto 30.06.2025).
vi.	Preventive measures to be taken to control ignition sources in bulk storage area.	<i>Flame Proof fitting and Flame Proof motors provided. All the Equipment and</i>	<b>Being complied.</b>  Flameproof fittings and provisions of earthing are in place, as seen during the site inspection.

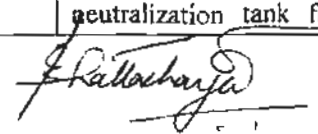

xiv.	The storm water from the premises shall be collected and discharged through a separate conveyance system.	<i>Storm water from the roof tops is collected and reused.</i>	Process effluent is carried through dedicated pipelines.
xv.	Hazardous chemicals shall be stored in tanks, tank farms, drums, carboys etc.	<i>Designated storage tanks with suitable MOC provided, designated covered area to store drums, and carboys provided.</i>	<b>Complied.</b>  During the inspection, it was observed that hazardous chemicals have been stored in dedicated storage tanks. Tank farms and storage carboys were also seen at place.
xvi.	Flame arresters shall be provided on tank farm and solvent transfer through pumps.	<i>Provided flame arrester to all tanks and transferring through pumps provided with mechanical seals.</i>	<b>Complied.</b>  PP informed that flame arrestors have been provided to all the tanks. Random verification of a few tanks confirmed the availability of the same. Arrangements were also seen to be at the place for pumping of solvents.
xvii.	Proper earthing shall be provided in all the electrical equipment wherever solvent handling is done.	<i>Double Earthing is provided to all the Equipment and Electrical fittings in solvent handling area.</i>	<b>Being complied.</b>  Flameproof fittings and provisions of earthing were seen to be at place.
xviii.	Hydrogen detectors with alarms shall be installed at the Hydro generators reactors and at cylinders for early detection and warning.	<i>Hydrogen leakage detection system with alarm is in place.</i>	<b>Complied.</b>  Hydrogen detectors with alarms were seen to be in place at the Hydro generators reactors facility.
xix.	The vent of the water seal tank may be extended at least three meters above the building to avoid release of hydrogen gas at the ground level. The vent should be regularly maintained to prevent blockage.	<i>The Vent is extended three meters above the building roof with flame arrestor and regular maintenance is in practice.</i>	<b>Complied.</b>  During the inspection, PP indicated that the vent has been extended above the roof of the building. As informed, the facility is being periodically maintained to prevent blockage.
xx.	Foam monitors shall be installed for all above ground solvent tanks.	<i>4 no's of Foam Monitors provided for Above ground solvent tanks.</i>	<b>Complied.</b>  During the inspection, PP showed the foam monitors that have been installed for above

*J. Kallacharya*

	reference shall be made to the Ministry to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.		expand and modify the project. Accordingly, EC was granted by the Ministry vide No. IA-J-11011/300/2020-IA-II(I) dated 05.01.2021. However, as intimated during the site inspection, this expansion/modification proposal has not yet been implemented by the PP. Basic infrastructure work has just been initiated in this regard.
iii.	The locations of ambient air quality monitoring stations shall be decided in consultation with the State Pollution Control Board (SPCB) and it shall be ensured that at least one station each is installed in the upwind and downwind direction as well as where maximum ground level concentrations are anticipated.	<i>The Locations of the Ambient air quality monitoring stations finalized in consultation with the KSPCB. Up wind station near Production blocks and downwind station at North East side considered.</i>	<b>Being complied.</b> As it was informed during the site inspection, locations of the AAQ monitoring stations (4 stations – near production block, near KIADB adjoining road, near production block – SML and near the main gate) have been decided upon discussion with the KSPCB-Raichur, considering the wind directions. Further, the PP is routinely monitoring the AAQ parameters across three shifts and keeping the records. Upon random examination of the records that was presented during the site inspection, it was noted that the parameters are meeting the norms. For instance, during the month of October 2024, the average levels of
iv.	The National Ambient Air Quality Emission Standards issued by the Ministry.S.R. No. 826(E) dated 16"November, 2009 shall be followed.	<i>Following and adhered to the ambient air quality emission standards, Results are within the specified limits of The National Ambient Air Quality Emission Standards issued by the Ministry.S.R. No. 826(E) dated 16"November, 2009.</i>

			<p>accredited and recognised by the Ministry) to monitor the ambient noise level.</p> <p>Nighttime noise level monitoring report was not found in the available records.</p>
vi.	The Company shall harvest rainwater from the roof tops of the buildings and storm water drains to recharge the ground water and use the same water for the process activities of the project to conserve fresh water.	<i>Rain water from the roof tops is collected and re-used in utilities.</i>	<p><b>Complied.</b></p> <p>Rainwater harvesting facilities like rooftop collection lines, harvesting/ storage tanks, recharge pits, etc. were seen at the place.</p>
vii.	Training shall be imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees shall be undertaken on regular basis. Training to all employees on handling of chemicals shall be imparted.	<p><i>Training on safety and health is being imparted to employees and workers as per the schedule on Chemical Handling.</i></p> <p><i>Routine and periodical medical checkups of all employees and workers being done.</i></p>	<p><b>Being complied.</b></p> <p>Training on safety and health is being imparted to employees and workers. Also, periodic medical examinations for all employees are being undertaken on regular basis. PP had presented relevant records during the site inspection.</p>
viii.	The company shall also comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project shall be implemented.	<i>The company has implemented all the environmental Protection measures and safeguards proposed in the documents submitted to the ministry &amp; All the recommendations in EIA/EMP implemented.</i>	<p><b>Being complied.</b></p> <p>As per the information made available, recorded produced and observations made during the site inspection, it was noted that the PP is complying with the environmental protection measures and safeguards proposed in the EIA/EMP report. For instance, septic tank and soak pit system has been installed, a neutralization tank for</p>

			administration in this regard.
xi.	A separate Environmental Management Cell equipped with full-fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.	<i>Environmental Management cell with Qualified personnel is in place . Effluent is treated in Unit-2, and the full-fledged lab is provided at Unit-2.</i>	<b>Being complied.</b>  As per the information provided during the site inspection, PP has constituted an Environmental Management Cell headed by Shri. KH Honneshaiyah (Chief Operating Officer, M/s Shilpa Pharma Lifesciences Ltd., Unit I). The Cell conducts periodic meetings and maintains the records. As per the records made available, the latest meeting of the cell was convened on 23.12.2024 where the matters like effluent management, hazardous waste management, etc. were discussed.
xii.	The company shall earmark sufficient funds towards capital cost and recurring cost per annum to implement the conditions stipulated by the Ministry of Environment, Forest and Climate Change as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so earmarked for environment management/ pollution control measures shall not be diverted for any other purpose.	<i>The Allocated capital cost is already invested, the cost of recurring expenditure is earmarked for the EMP and pollution control measures, not diverted for any other purposes.</i>	<b>Being complied.</b>  As already mentioned above (under the item - Financial Details - in Part I data sheet).
xiii.	A copy of the clearance letter shall be sent by the project proponent to concerned Panchayath, Zilla Parishad/Municipal Corporation, Urban local Body and the local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal	<i>Copy submitted to Grama panchayath.</i>	<b>Complied.</b>  As per the records made available during the site inspection, PP has submitted a copy of the EC to the local panchayat.
xiv.	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated Environmental Clearance	<i>The Industry is Submitting the six monthly compliance to</i>	<b>Being complied.</b>

			advertisements were published on 19.01.2021 in – the Deccan Herald (in English) and the Prajavani (in Kannada).
xvii.	The project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.	<i>The project is the existing one and hence not applicable. However financial closure is on march to march and approvals by the concerned authorities is informed.</i>	As already mentioned above (under the item no. 14 -Status of Construction – in Part I data sheet).

Signature of the inspecting officer  
(Dr. Dola Bhattacharjee, Scientist 'B')

Plates: The solvent storage tanks and the vent of the water seal tank extended above the building.

Plates: The trade effluent storage tanks and pipelines; the project proponent along with the inspecting officer.
