Company Overview

Commenting on Q1 FY'23 performance, Mr. Vishnukant Bhutada, Managing Director Shilpa Medicare Limited said

"Q1 FY'23 has been a challenging quarter for the company where we saw a down trend in both API and Formulation. The prevailing inflationary trends in the overall macro environment have seen increase in cost and pricing pressure in API and Formulation businesses have had impact on our margin profile. In our endeavor to improve our margin profile, we have already started working on identifying areas in our manufacturing process where efficiencies can be driven and building a strong product portfolio.

We have laid down a clear growth path for the company and as the first step on 30th June 2022, we completed the slump sale of our API business to bring in additional focus to drive growth. We will continue our primary focus to enhance our geographical footprint, introduction of new products and delivering superior value proposition to clients.

In this tough quarter for business, we had some success on regulatory side where we saw some approvals coming in from US FDA, UK MHRA and Russia GMP across businesses which will help us to create a base to build our future growth.

Investments in Biologics was made to tap a very attractive segment in the market, with limited competition and good potential to grow including manufacturing of vaccines. Whilst our initiative for manufacture of COVID-19 vaccines for our partners hit certain hurdles, we have progressed 3 of our own products to various clinical phase stages.

We had a tough quarter but as mentioned above we have identified the pain points and the growth drivers and we have already started working on it which should help us to deliver better in the coming quarters."

Financial Performance

Shilpa Medicare Limited (SML) started its operations as API manufacturer way back in 1989 at Raichur, Karnataka-India. Today Shilpa Medicare Limited is a global brand in manufacturing and supplying of affordable API and Formulation globally in different regulated markets.

Shilpa Medicare has been on path of expansion ever since its inception. With a regulatory recognized manufacturing set up and excellent scientific expert team in place, Shilpa Medicare has since been on a steady growth path. Currently they are one of the leaders in the Oncology market and offer a complete range of products in this segment spanning across APIs, formulations both in terms of R&D and manufacturing capabilities. Further to consolidate in field of Oncology, API and formulations, they are striving to put in efforts in field of novel drug delivery systems and biotech products along with widening their focus to other therapy areas. Where Shilpa Medicare Ltd is today is the result of their constant endeavors for more than three decades.
